

# Spiderpole Base Extension

- Build the base from wood as shown below.
  - Make it as long as needed to obtain the desired height
- Weather-proof the wooden base with paint.
- Secure the base to its mount:
  - i.e. bolted to a wall, or strapped to a fence post, etc.
- Remove the bottom rubber cap from the pole.
- Secure the Spiderpole to the base mount using straps. Do NOT use compression clamps!
- Use Spiderpole optional Clamp Set, [HERE](#)
